Career objective

Full Stack Developer specializing in the MERN stack, Flutter, and Next.js, with hands-on experience building and deploying scalable web and mobile applications. Experienced in developing production-ready Flutter applications, integrating RESTful APIs, and creating pixel-perfect user interfaces. Passionate about Machine Learning, Deep Learning, and AI chatbot development, with a focus on designing intelligent, user-centric solutions for real-world problems.

Education

B.Tech AIML

Kongu Engineering College

09/2023 – Present | Erode, India

CGPA : 7.24* (6th sem)

HSC

Vijayalakshmi Matric Higher Secondary School

2022 – 2023 | Mettupalayam, India

Percentage of marks : 84%

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Mobile:** Flutter
- **Databases:** MongoDB, Firebase, SQL
- **Tools:** Git, GitHub, Power BI, Figma

Soft Skills

- Team Collaboration
- Communication
- Problem Solving
- Logical Reasoning

Area of Interest

- Mobile App Development
- Web Development

Achievement

- 🏆 2nd Place – KEC Hackathon 2026 (24 hrs)

Certifications

- Oracle Apex Cloud Developer
- Oracle Certified Java SE 17 Developer

Professional Experience

Flutter Developer - Soulocal Technologies(Freelance)

07/2026 – Present

- Developed and maintained a live production cross-platform delivery partner application using Flutter for Android and iOS.
- Built pixel-perfect, responsive UIs from Figma designs and integrated RESTful APIs with an Odoo ERP backend using Riverpod state management.
- Implemented advanced device features, including ML Kit-based face validation and Firebase push notifications, while leveraging Claude Pro for optimized debugging and code generation.

Flutter Developer - Thristo Market Place(Freelance)

11/2025 – 06/2026

- Developed and maintained a live production cross-platform local-store partner application from scratch using Flutter for Android and iOS to manage inventory, orders, and store operations.
- Built pixel-perfect, responsive UIs from Figma designs and engineered end-to-end features for both partner and customer-facing mobile applications.
- Implemented advanced customer-facing features and backend services, including a Fashion AI-powered virtual try-on experience and a full-suite integration of RESTful APIs and Firebase services

Projects

Ledger App:

Developed a Flutter-based expense tracking application with Firebase integration, enabling real-time data storage and efficient financial management.

TECH STACK : FLUTTER + FIREBASE

Tailoring Hub:

Developed a MERN-based platform enabling machine trading, technician connectivity, and secure payments, implementing authentication and real-time data handling for seamless end-to-end workflows.

TECH STACK : MERN

Handwritten Digit Classification:

Built a CNN model using Python and Streamlit achieving ~95% accuracy in digit prediction, enabling real-time user input recognition via web interface.

TECH STACK : PYTHON , STREAMLIT
